Friends of the Earth International

MEDIA COVERAGE ACHIEVED AT THE WARSAW TALKS - November 2013

From the media perspective, Friends of the Earth International's presence at the UNFCCC talks in Warsaw made a big impact.

Our messages were picked up not only by alternative media such as Democracy Now! but also by a long list of mainstream media such as Metro and euronews – including news agencies such as Agence France Presse and Reuters – reaching out to millions of readers and viewers on all continents in more than 10 languages.

Our coverage reached very large audiences in the following countries: Austria, Australia, Belgium, France, Ireland, Norway, Poland, Spain, Sweden, United Kingdom, and United States.

But our messages also reached vast numbers of people in countries such as Canada, Bangladesh, China, the Philippines, Argentina, Mexico, Brazil, Chile, Switzerland, Italy, and many Arab countries.

Broadcast (TV and radio) coverage is not included in this document but we know that many broadcast media interviewed our spokespeople in Warsaw, so we reached out to larger audiences than those of the media listed in this document.

Each language section is organised in chronological order. Most recent stories at the top.
